

# Industrial Mobile Computers

Dedicated to designing, manufacturing & maintaining rugged mobile computers of lasting value.

## Tablets

**DLI10**

DLI10 is equipped with an industrial cover lens and is tested to take a 1/4 lb. ball bearing drop at 5.75 feet directly to the screen. In addition to an anti-glare, anti-fingerprint, and polarized PCAP touchscreen the LCD is viewable indoors or outdoors while in direct sunlight. An impact resistant housing is sure to withstand multiple 4 feet drops to concrete and is IP54 protected against water and dust.

**DLI8**

DLI8 not only survives the demands of a harsh industrial environment, but pleases the eyes of the discerning user with its sleek design. Built on common PC architecture, the DLI8 rugged tablet allows operating system independence through the full suite of Windows products as well as Android and Linux.

## Rugged PDA

**DLI5**

The DLI5 is housed in an impact resistant casing and certified for IP54 protection against water and dust. The DLI5 is designed to survive the demands your mobile workforce requires in the warehouse or in the field providing your business with the flexibility to collect and share data across the entire enterprise.

The DLI5 is rated for multiple 5 feet drops to concrete.

## Vehicle Mounts

**DLI8500P**

**DLI9200**

The 8500P and the DLI9200 both have an attached industrial backlit ALPHA/NUMERIC keyboard that provides ease of use even with a work glove. These units were designed with the forklift driver in mind. Built around an industrial Intel® processor the DLI8500P and DLI9200 support the latest Windows 10 or Android 6.0 Marshmallow operating systems. Affordably priced these units set the standard for reducing operational costs.

**DLI9300**

The DLI9300 internal modular design provides your business the flexibility to grow as applications require. As advancements in Wi-Fi, RAM, and solid state drives increase so can the DLI9300 providing your business the right product for the future.
